

# FS Investment Corporation III

## Summary

On December 18, 2019, FS/KKR Advisor, LLC (FS/KKR), a partnership between FS Investments and KKR Credit Advisors, announced the completion of the previously announced mergers of FS Investment Corporation III (FSIC III), FS Investment Corporation IV (FSIC IV) and Corporate Capital Trust II (CCT II) into FS Investment Corporation II (FSIC II). The combined entity, which has been renamed **FS KKR Capital Corp. II (FSK II)**, is now the second-largest business development company (BDC), with over \$9.5 billion in assets. FSK II will continue to be advised by FS/KKR.

The mergers are part of a three-step process toward a liquidity event for all shareholders.

**1 Merger:** FSIC II served as the surviving entity in net asset value (NAV)-for-NAV mergers with FSIC III, FSIC IV and CCT II. The combined company was renamed FS KKR Capital Corp. II.

**2 Recapitalization:** Prior to a listing and subject to board approval, FSK II intends to issue preferred stock on a pro rata basis to the existing holders of common stock of FSK II with an aggregate liquidation preference of approximately 20% of FSK II's NAV.

The preferred shares will provide current income for investors (5.5%) and help align the dividend yield, dividend coverage and return on equity of FSK II's common stock to a competitive level with some of the largest publicly traded BDCs.

Following the recapitalization, an investor's total value will consist of the following:<sup>1</sup>

- Common shares of FSK II representing approximately 80% of total shareholder value
- Preferred shares of FSK II representing approximately 20% of total shareholder value

**3 Listing:** After the merger and recapitalization, FSK II intends to list its common shares on the New York Stock Exchange, subject to market conditions and board approval.

## Key objectives

The staged liquidity plan is designed to maximize shareholder value, position FSK II's common stock for a public listing and achieve the following:

**1**

**Ensure** FSIC III investors receive equal value in shares of FSK II

**2**

**Align** distribution with public BDC peers

**3**

**Diversify** the combined portfolio

**4**

**Mitigate** execution risks of public listing

<sup>1</sup> Assuming the value of the common shares is the NAV per share and the value of the preferred shares is the liquidation preference.

## Summary of NAV-for-NAV merger

FSIC III investors received equal value of FSIC II common shares through a NAV-for-NAV merger. In the illustration to the right, FSIC III shareholders received 0.9804 shares of FSIC II common stock for each share of FSIC III.

The NAV used to determine the conversion ratio for FSIC III included the impact of merger expenses and the payment of the regular monthly December distribution of approximately \$0.06 per share.

Assuming an investor owned \$100,000 in FSIC III shares prior to the merger, applying an exchange ratio of 0.9804 would result in the investor receiving approximately 13,588 shares of FSIC II common shares (approximately 13,860 shares owned pre-merger, multiplied by the exchange ratio). The post-merger value would also equal \$100,000 (13,588 shares multiplied by FSIC II's NAV of \$7.36 per share).

### NAV-FOR-NAV EXCHANGE RATIO (as of 12/16/2019)

FSIC III NAV per share	\$7.22
(/) FSIC II NAV per share	\$7.36
<b>Exchange ratio</b>	<b>0.9804</b>

## Recapitalization summary

Finally, assuming the board approves the recapitalization, investors would hold approximately 80% of their pre-merger value in common shares of FSK II and approximately 20% in preferred shares.
